Report an injury immediately...

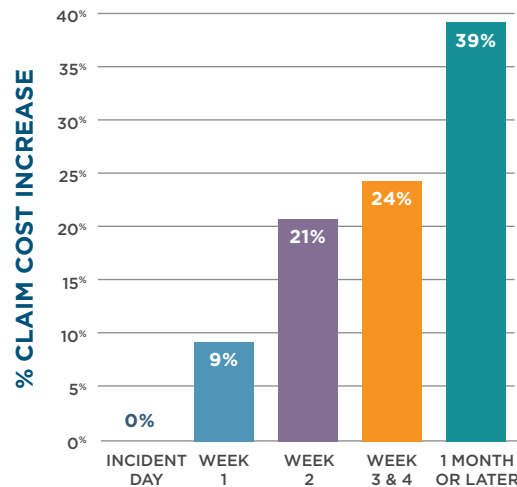

Workplace injuries can be costly for your business – in lost productivity and claim costs. So it's important to report an employee injury immediately. That way the claim process can get started right away. Research has shown that the sooner a claim is reported:

- The sooner the employee returns to work
- The lower the cost of the claim

Reporting workers' compensation claims right away is also a good way to help control your worker's compensation costs.

WORKERS' COMPENSATION CLAIMS

Impact of Timely Reporting*

DELAY IN REPORTING THE CLAIM

MAKING THE CALL

When you call to report the claim, professionals will walk you through the process, gather the information, and assist your employee in getting back to health and back to work.

Important information to have when you call:

- The policy number
- Details of the incident
- Employee information, including:
 - » Name, Date of Birth, Address, Phone Number » Social Security Number
 - » Age, Gender
 - » Marital Status, Number of Dependents
 - » Hire Date, Years in Current Position » Current Wage Information

E-COMP Insurance Carriers
